Letter From the President

Dear Potential Sponsor,

My name is Justin Smith, and I am a senior Electrical Engineering student at California State University, Northridge, expected to graduate in December 2027. It is an honor to serve as the 2026 to 2027 President of the CSUN Chapter of the National Society of Black Engineers, CSUN NSBE.

My journey with NSBE has shaped both my academic and professional development. I began as the Diversity and Community Chair, continued as External Vice President, and now have the privilege of leading this organization as President. Through CSUN NSBE, I have found much more than professional resources. I found a community that made me feel supported, motivated, and at home.

As a freshman, having a space where I could connect with other students, receive advice about professors and coursework, prepare for interviews, build my résumé, and learn from the experiences of others made a meaningful difference in my college experience. CSUN NSBE introduced me to peers and mentors who encouraged me to keep moving forward, even during times when my path in engineering felt uncertain.

One of the most impactful experiences for me was attending alumni panels and professional events hosted by CSUN NSBE. Hearing alumni share their journeys, challenges, and accomplishments helped me see that success after college was possible. Their stories gave me renewed motivation and a stronger sense of purpose. As President, I want to keep that torch aflame by creating those same opportunities for current and future Black engineers at CSUN.

CSUN NSBE is committed to increasing the number of culturally responsible Black engineers who excel academically, succeed professionally, and positively impact their communities. This year, our priorities include growing our membership, expanding professional development opportunities, and helping more students access transformative experiences through the Fall Regional Conference and NSBE Annual Convention.

Your sponsorship would directly support our members through conference registration and travel, chapter merchandise and engagement materials, professional workshops, networking events, résumé building opportunities, mock interviews, alumni panels, and other initiatives that prepare students for success beyond the classroom. It would also help us strengthen outreach efforts for local middle school and high school students in Los Angeles and Los Angeles County, encouraging young Black students to recognize their potential in STEM and engineering.

CSUN NSBE is more than a student organization. It is a support system, a professional network, and a community where students can grow into confident engineers and leaders. Your investment can be life changing for students who may not yet see themselves represented in engineering or may not yet know that a community like NSBE exists to support them.
We sincerely invite you to partner with CSUN NSBE in paving the way for Black excellence in engineering. With your support, we can continue building a welcoming and empowering environment where our members develop academically, professionally, culturally, and personally.

Thank you for considering a sponsorship opportunity with CSUN NSBE. We look forward to the possibility of working together to create lasting opportunities for our students, our community, and the future of engineering.

Sincerely,
Justin Smith

About NSBE

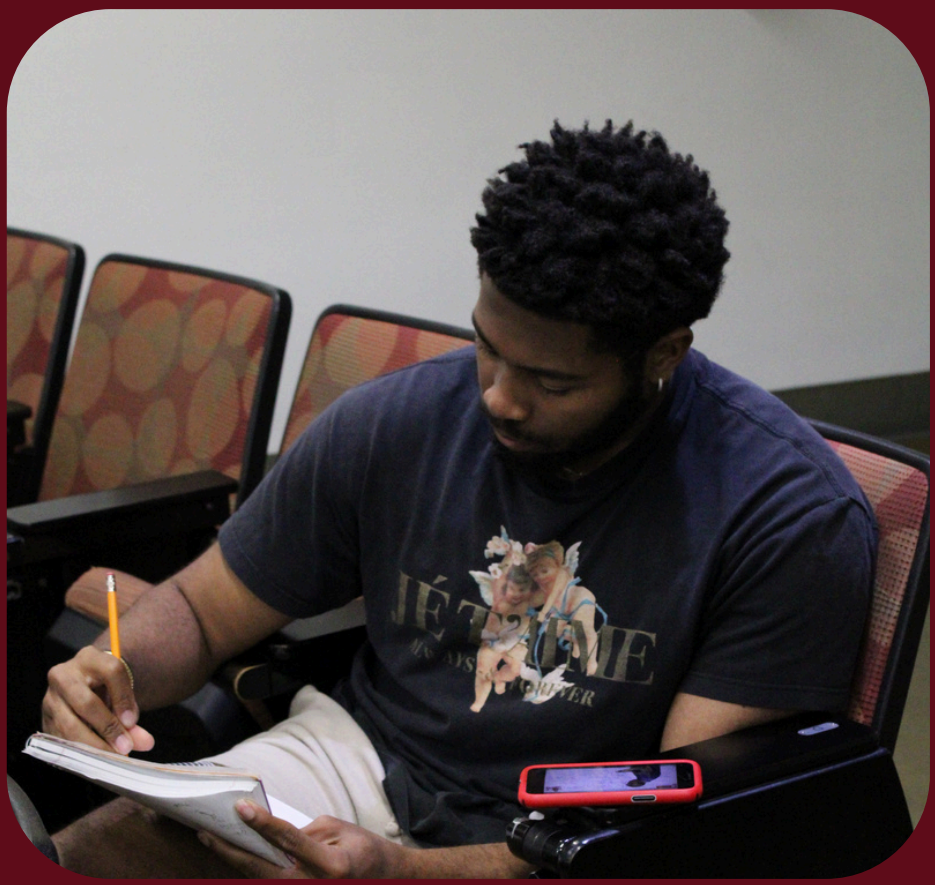

The National Society of Black Engineers (NSBE) is a 501(c)(3) nonprofit organization dedicated to the academic and professional success of Black engineering and technical students and professionals. NSBE offers its members leadership training, professional and academic development, mentoring opportunities, community service outreach programs, and scholarships.

Mission: To increase the number of culturally responsible Black engineers who excel academically, succeed professionally and positively impact the community.

Organization: NSBE is one of the largest student-managed associations in the country, comprised of more than 600 chapters nationwide and overseas. These chapters are geographically divided into six regions and are governed by a national executive board.

Membership: NSBE has more than 24,000 active collegiate and professional members. Its membership has also grown to include over 3,600 pre-college students in addition to chapters in Africa, Asia, Canada, the Caribbean, and Europe.

Conferences: NSBE annually hosts 18 regional conferences, a national leadership training institute, an international conference, and a national convention, which draws over **20,000 attendees**.

About CSUN Chapter

Founded in 1977, CSUN-NSBE is the preeminent organization for Black students pursuing STEM degrees at our college. Additionally, CSUN-NSBE is a proud affiliate of Region Six which spans over 13 states and is home to over 30 chapters. With over 15 active members, CSUN-NSBE accounts for about 33 members in total. Through the support of the national organization, the College of Engineering and Computing at our college, and corporate sponsorship, CSUN-NSBE supports Black STEM students by helping them develop socially, academically, and professionally.

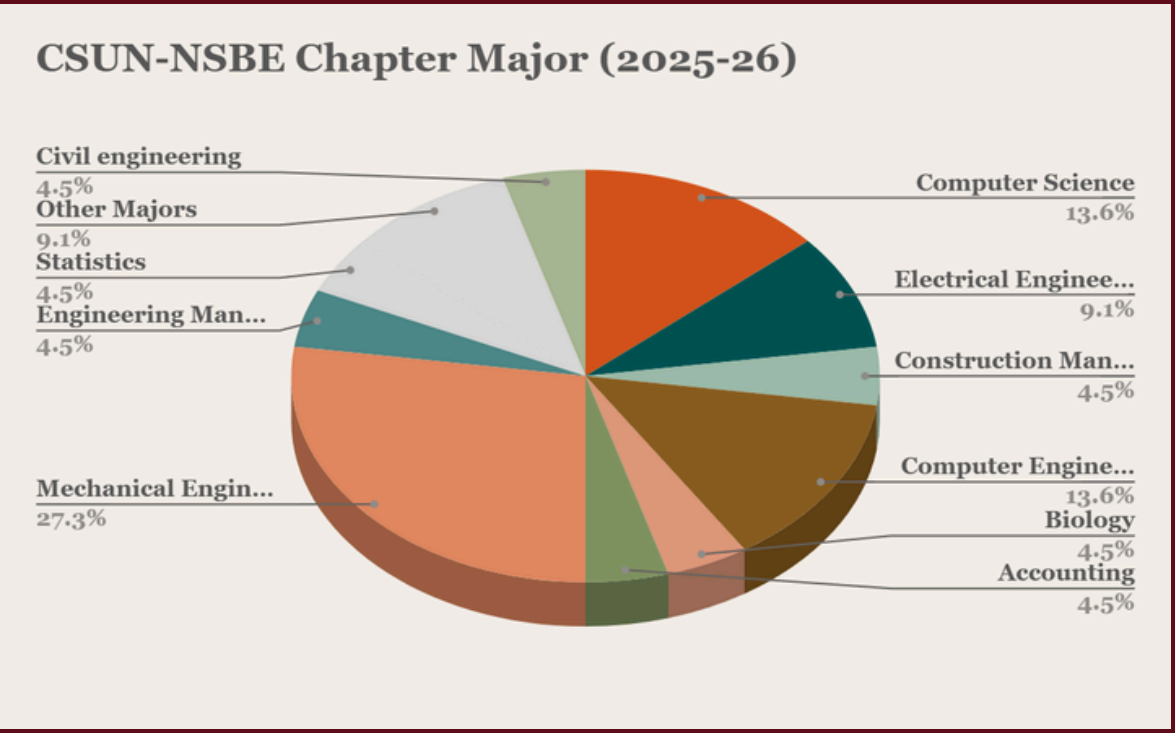

About CSUN Chapter

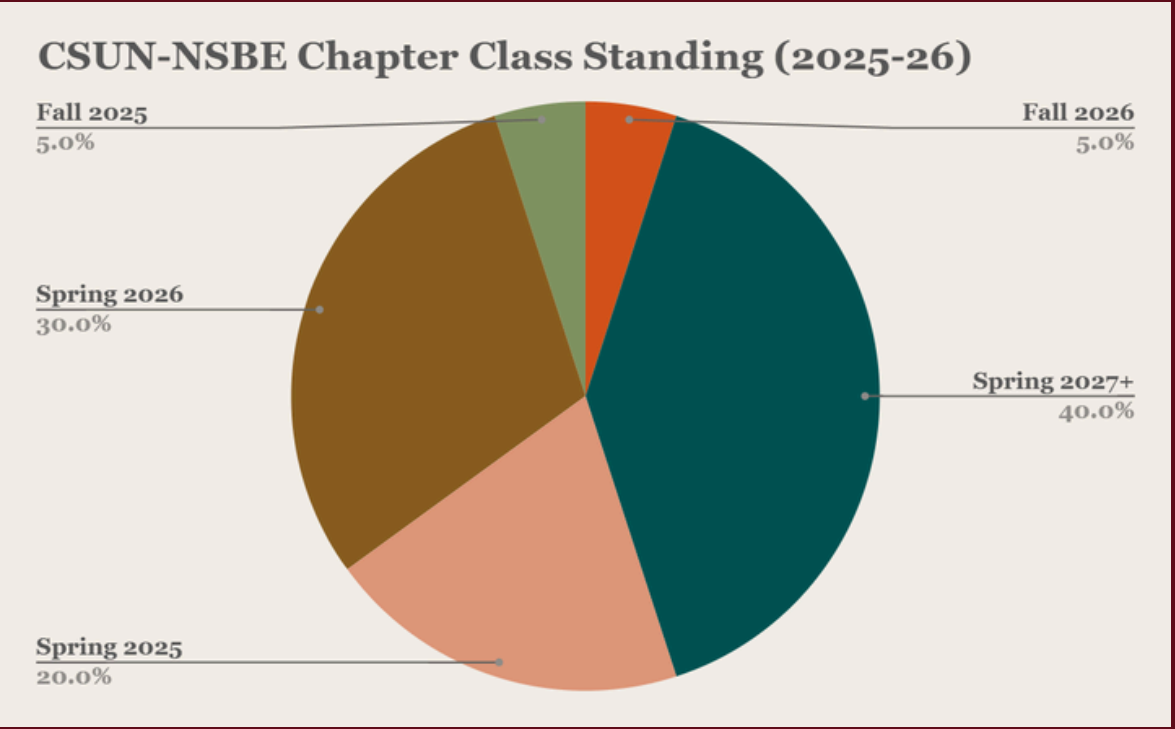

CSUN-NSBE Chapter Class Standing (2025-2026)	
Spring 2025	20.0%
Fall 2025	5.0%
Spring 2026	30.0%
Fall 2026	5.0%
Spring 2027+	40.0%

CSUN-NSBE Chapter by Major (2025-2026)	
Civil Engineering	4.5%
Engineering Management	4.5%
Mechanical Engineering	27.3%
Accounting	4.5%
Biotechnology	5.0%
Computer Engineering	9.1%
Computer Science	13.6%
Electrical Engineering	9.1%
Construction Management	4.5%
Other Majors	9.1%

Programs & Events

National/Regional Events

REGION 6 LEADERSHIP CONFERENCE

The Regional Leadership Conference (RLC) is targeted specifically towards Chapter and Professional leadership. Attendees receive three days of position-focused training, professional and leadership development, and an opportunity to network with peers throughout the region. The goal is that leaders leave RLC with the knowledge and tools to be successful as the Model Region and a connection to the NSBE mission. With these new skills, attendees will be able to take their chapters to the next level as they all strive to meet the new regional objectives.

ZONE SUMMITS

Zone summits allow our chapter to network and fellowship with other chapters within our zone to get to know each other as well as participate in activities and workshops catered to this specific zone.

FALL REGIONAL CONFERENCE

The Fall Regional Conference (FRC) is our region's very own mini-Convention before the entire Society reconvenes for Annual Convention in the spring. During FRC, you can expect to see revolutionary programming and workshops that will focus on cultural development, financial literacy, leadership development, academic success and much more. Additionally, FRC will see opportunities for Region VI's membership to further their professional careers at our Career Fair where they will be able to connect with companies seeking interns and full-time employees.

ANNUAL CONVENTION

The Annual Convention showcases Black students and professionals who have a passion for Science, Technology, Engineering and Math (STEM), who are high achievers in these fields and who are channeling their dedication to advance their communities and society at large. The convention usually hosts 20,000 aspiring and practicing engineers, educators, representatives of more than 200 academic institutions, government agencies, corporations and nonprofit organizations.

The convention features high-profile speakers, panel discussions, dynamic workshops, networking sessions, community engagement events, technical and scientific competitions, hands-on engineering and science activities and the premier career fair geared toward Black people in STEM.

Programs & Events

Chapter Events

GENERAL BODY MEETINGS

New and returning members will get the chance to learn more about NSBE, our mission for the new academic year, upcoming events, and how to become involved with the organization. They will also be able to meet and network with those in attendance.

PROFESSIONAL DEVELOPMENT EVENTS

We offer our members different development workshops throughout the academic year which include resume reviews, practice interviews, networking events, and more. These events allow our members to hone their professional skills so that they can be successful after graduation.

WEEKLY STUDY SESSIONS

Our chapter facilitates study halls for members three times a week. This promotes an environment for academic success, gives members a reliable location to study each week and an opportunity to collaborate with other NSBE members.

RECRUITMENT EVENTS

Our chapter gives top companies a chance to come speak with our members to tell them about their company and what job opportunities they have available. Recruiters will be able to network with members to find potential new employees or interns.

ACADEMIC EXCELLENCE WORKSHOPS

Academic excellence events help our members to not only succeed in their classes, but also acquire skills that will make them stand out in the job market. Some examples of these workshops are: note taking workshops, test prep workshops, Python workshops, 3D printing workshops and more.

PRE-COLLEGIATE INITIATIVE EVENTS

Our chapter plans to host events catered to K-12 students in the community. These events are to help increase interest in going to college and pursuing STEM degrees in Black students and other minorities.

Chapter Expenses

Meetings, Workshops, Events

Food for 10 events: $1,500
Pre-Collegiate Initiative Event supplies: $200
Total: $1,700

Fall Regional Conference

Expected Participants: 15
Event Admission: $3,100
Travel Airfare: $7,008
Food: $0
Housing: $1,210
Total: $11,318

Annual Convention

Expected Participants: 20
Event Admission: $9,000
Travel Airfare: $8,020
Food + Travel Expenses: $2,000
Housing: $7,005
Car Rental: $1,200
Total: $27,225

Regional Leadership Conference

Expected Participants: 5
Event Admission: $600
Travel Airfare: $0
Food: $0
Housing: $800
Car Rental: $450
Total: $1,850

Total: $42,093
